

Solubility

Across

- 7. A mixture of a solute dissolved in a solvent
- 8. A solution in which no more solute will dissolve at that temperature
- 9. Solution is a
- 10. A liquid in which the solute dissolves

Down

- 1. Process that occurs when a saturated solution of salt is allowed to cool.

- 2. Solubility of most solids increases with increase in temperature. If you plot solubility at different temperatures, what type of variable is temperature?
- 3. A measure of how much of a solute dissolves in a solvent
- 4. A substance that does not dissolve in a solvent is
- 5. Something that CAN dissolve is described as being....
- 6. The substance that dissolves in a solvent
