

Name: _____ Date: _____

Space Figures Vocabulary Crossword

Across

2. A shape or figure that has three dimensions
 6. A 3D shape with flat polygonal faces, straight edges and sharp corners or vertices
 10. Lines that intersect at 90°
 12. A face of a shape that is considered the "bottom"
 13. A flat surface that forms part of a boundary of a solid 3D object

Down

1. A shape with 2 round bases and 2 parallel lines connecting the round ends
 3. A shape has a flat, rounded base with a single vertex
 4. A point that terminates a line or a curve or comprises the intersection of two or more lines or curves
 5. Lines that are lying in the same direction but always the same distance apart

7. A shape that has a square base, and 3 sides that meet at a vertex
 8. A shape with two faces lying in parallel planes and with the other faces parallelograms.
 9. A line segment on the boundary, and is often called a side
 11. A shape that has six equal square sides
