

Swod list

Across

4. warm air pass formed in the tropics; has low pressure
5. a dry air mass that forms over land
7. the percentage of water vapor that is actually in the air
8. a measure of the amount of water vapor in the air
9. measure relative humidity
10. cold air mass; has high pressure

Down

1. the temperature at which condensation begins
2. the boundary where the air masses meet
3. water evaporates over the oceans; air is dry and humid
6. a huge body of air that has similar temperature, humidity, and air pressure throughout
