

Tectonic Plates

Across

- 3. Boundary between two plates that are sliding against each other
- 5. Boundary between two plates moving away from each other
- 7. Theory that continents drift apart
- 8. Piece of the lithosphere that moves on the asthenosphere

- 10. The layer between the crust and the core

Down

- 1. The liquid layer of the Earth's core
- 2. Boundary between two colliding plates
- 4. Solid, dense center of the Earth
- 6. A break in the Earth's crust
- 9. The outermost layer of the Earth
