

# The Changing Earth

**Across**

- 5. a push or a pull
- 7. many rocks moving fast down a hill
- 8. one set of layers of sedimentary rock
- 9. get bigger
- 10. change by reacting with air or water

11. a low place between hills or mountains

12. a force that pulls things together

**Down**

1. the process that changes the size and shape of rock

2. big areas of ice and snow that do not melt each year

3. water spilling over the sides of a river

4. the process of moving rock from place to place

6. not covered
