

The Immune System

Across

2. What is one disease that is preventable through vaccines?
5. This makes the pathogen or bacteria ineffective.
6. This part traps bacteria and pathogens.
7. This organ filters blood.
8. Can stress affect the way your immune system works?

9. This part produces t-cells.

10. How many lines of defences are there?

Down

1. This disease attacks healthy cells.
3. What causes a immune response?
4. Is immunosuppression disease curable?
