

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# The Water Cycle

## Across

- 4. water in gas form
- 5. Formed in the sky during condensation
- 6. Over 90% of Earth's water is found in
- 7. the atmosphere \_\_\_\_\_ in temperature during evaporation
- 8. process in which moisture is pushed through plant leaves

- 10. Process in which precipitation seeps into the ground

## Down

- 1. process in which water vapor in the air is turned into liquid water
- 2. big underground reservoirs
- 3. process in which water changes from liquid to gas
- 9. Rain, snow, sleet and \_\_\_\_\_ are forms of precipitation
