

The Water Cycle

Across

- 2. When rain, snow, or hail falls to the ground.
- 6. What farmers do when they add water to their fields.
- 7. A huge body of salt water.
- 8. Carrying water from one place to another.
- 11. When water turns into vapour.

12. When water seeps into the surface.

13. When water flows over and away from a surface.

Down

- 1. The gaseous phase of water
- 3. When the conversion of a vapour or gas to a liquid.
- 4. Evaporation from water to plant.

5. Particles are removed from a fluid, either a liquid or a gas.

9. An underground layer where the material contains water.

10. A colourless, transparent, odourless liquid.
