

The Water Cycle

Across

- 1. An underground layer of rock or sediment that holds water
- 7. Any form of water that falls from clouds and reaches Earth's surface as rain, snow, sleet, or hail
- 9. A series of actions or operations leading toward a particular result.
- 10. A hole sunk into the ground to reach a supply of water.
- 11. The change in state from a gas to a liquid

Down

- 2. Plant sweat

- 3. The 3% of water we use to drink and our personal high genies
- 4. The continuous process by which water moves from Earth's surface to the atmosphere and back again.
- 5. The land area that supplies water to a river system.
- 6. Atlantic, Indian, Pacific, Southern, and Arctic oceans are what?
- 8. The process by which molecules at the surface of a liquid absorb enough to change to a gas
