

# Unit 8 Patterns of the Natural World

**Across**

3. When water collects from precipitation

5. 30% chance of rain is referring to the \_\_\_\_\_

8. San Antonio's \_\_\_\_\_ is humid during the summer.

9. Surrounds the Earth and is made of gases

11. Found in oceans

12. Is found under the Earth's surface.

13. Martin saw \_\_\_\_\_

\_\_\_\_\_ as his mom boiled a pot of water.

14. We drink \_\_\_\_\_

\_\_\_\_\_ that comes from an underground aquifer.

**Down**

1. Ariana saw \_\_\_\_\_

\_\_\_\_\_ form on her glass of water when she sat it down on the counter.

2. Water is always moving through the atmosphere and changing forms through the \_\_\_\_\_

4. The average \_\_\_\_\_

\_\_\_\_\_ for San Antonio is 67%.

6. WW. \_\_\_\_\_

\_\_\_\_\_ from leaves is part of the water cycle too.

7. rain, snow, sleet or hail

10. WW. \_\_\_\_\_

\_\_\_\_\_ makes it way to rivers.
