

# Vocab Think-Tac-Toe

## Across

2. Warm air mass formed in the tropics; has low pressure.
3. A measure of the amount of water vapor in the air.
4. Cold air mass; has high air pressure.
6. A dry air mass that forms over land.
9. The percentage of water vapor that is actually in the air.

10. Measures relative humidity.

## Down

1. Water evaporates over the oceans; air is dry and humid.
5. The boundary where the air masses meet.
7. The temperature at which condensation begins.
8. A huge body of air that has similar temperature, humidity, and air pressure throughout.
