

Vocabulary Exercises

Across

3. Organism that is within the kingdom Bacteria
5. Cell that has a nucleus and other membrane-bound Organelles.
8. Cell that does not have a nucleus or other membrane-bound Organelle.
9. Activities occurring at the cell level
10. Molecules that form the double layered cell membrane; consisting of a glycerol, phosphate group and two fatty acids
11. Basic unit of life

Down

1. Method by which molecules are moved in and out of the cell
2. Membrane-bound structure that is specialized to perform a distinct process within a cell
4. Regulation and maintenance of constant internal conditions in an organism
6. Theory that states that all organisms are made of cells, all cells are produced by other living cells, and the cell is the most basic unit of life
7. Eukaryote that is not an animal, plant or fungus
