

Name: _____

Date: _____

Volcanoes

Across

3. most dangerous type of volcano
 6. least explosive magma type
 8. ejection of solid, liquid, and gas from a volcano
 12. a mudflow caused by volcanic activity
 15. smooth looking type of lava
 16. a liquids resistance to flow
 17. most explosive type of magma
 19. type of volcano that forms when lava quickly pours out of a vent & accumulates around the vent

Down

1. is an opening in the earth's crust where magma occasionally exits
 2. volcano that forms when rock fragments shoot out of volcano, then fall back and accumulate
 4. type of volcano that forms at convergent plates
 5. where do composite volcanoes form at?

7. flows are violent eruptions that can send rock fragments down slope at incredible speeds
 9. are usually hot regions of earth's mantle where magma occasionally rises to the surface and forms a volcano
 10. the earth's crust is divided into _____ plates
 11. 2nd most explosive type of magma
 13. the rough, sharp type lava
 14. fine particles of rock dust from an erupting volcano
 18. is molten rock that is stored below earth's surface
