

Water Cycle

Across

- 3.** a slowly moving mass or river of ice formed by the accumulation and compaction of snow on mountains or near the poles.
- 5.** Frozen water
- 7.** Transpiration is the process where plants absorb water through the roots and then give off water vapor through pores in their leaves.
- 9.** Percolation is the process of a liquid slowly passing through a filter.
- 10.** water held underground in the soil or in pores and crevices in rock.
- 11.** the conversion of a vapor or gas to a liquid.

Down

- 1.** the process of turning from liquid into vapor.
- 2.** rain, snow, sleet, or hail that falls to the ground.
- 4.** the whole body of salt water that covers nearly three fourths of the surface of the earth
- 6.** When the ice/snow from the mountains melt and the water travels to bodies of water or the ground
- 8.** atmospheric water vapor frozen into ice crystals and falling in light white flakes or lying on the ground as a white layer.
