

Name: _____

Date: _____

Water Quality

Across

- 8. what is change of the physical state of matter from gas phase into liquid phase, and is the reverse of evaporation.
- 9. what is the action or process of precipitating a substance from a solution.
- 10. What is easily separated from the water.
- 11. what is the movement of water through the atmosphere,
- 12. what is essentially evaporation of water from plant leaves.

Down

- 1. What is commonly the mechanical or physical operation which is used for the separation of solids from fluids (liquids or gases) by interposing a medium through which only the fluid can pass.
- 2. what is the flow of water that occurs when excess stormwater, meltwater, or other sources flows over the earth's surface.
- 3. what is tendency for particles in suspension to settle out of the fluid in which they are entrained and come to rest against a barrier

- 4. what is the process of turning from liquid into vapor.
- 5. what is the removal, deactivation or killing of pathogenic microorganisms.
- 6. what is the water present beneath Earth's surface in soil pore spaces and in the fractures of rock formations.
- 7. What is stored for later use in natural water sources, such as groundwater aquifers, soil water, natural wetlands, and small artificial ponds, tanks and reservoirs behind major dams.
