

Name: _____

Date: _____

Waves and the EM Spectrum

Across

- 4. wave on the electromagnetic spectrum with the longest waves
- 7. heat waves
- 8. Height of a wave from crest to midline
- 10. the mnemonic to help you remember the colors of the visible spectrum low to high frequency

Down

- 1. Wave on the electromagnetic spectrum with highest frequency
- 2. distance between two wave crests or troughs
- 3. bending of light
- 5. wavelength times frequency
- 6. number of waves in a period
- 9. matter
