

Words of Science

Across

- 1. Sum of the masses of its isotopes, multiplied by its natural abundance.
- 6. A small positively charged particle in an atom nucleus.
- 7. An element found in group 17 of the periodic table.
- 8. One of two letter representation of an element.

- 9. An element in group 2 of the periodic table.
- 11. Electrons on the outer most shell of the electrons.
- 12. Elements in group 1A.
- 13. Material that can be rolled into a wire.
- 14. Elements in group 8A.

Down

- 2. The center of an Atom.
- 3. Sum of protons and neutrons in the nucleus of an atom.
- 4. Material that can be flattened into shapes.
- 5. Electrically charged atoms/group of atoms formed by the loss/gain of 1 of more electrons.
- 10. A horizontal row of elements of the periodic table.
