

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# World Environment Day 2021

## Across

5. Action that helps cope with the effects of climate change - for example construction of barriers to protect against rising sea levels.
7. City in which COP26 will be held in November this year.
8. Number of sea turtle species observed in Maldives
9. The \_\_\_\_\_ revolution marks the beginning of a strong increase in combustion of fossil fuels and related emissions of carbon dioxide.
10. Second most important man-made greenhouse gas.

## Down

1. The capacity to recover quickly from difficulties; toughness.
2. Substances containing only hydrogen and carbon.
3. A \_\_\_\_\_ point is a threshold for change, which, when reached, results in a process that is difficult to reverse.
4. Action that will reduce man-made climate change. This includes action to reduce greenhouse gas emissions or absorb greenhouse gases in the atmosphere.
6. Any natural unit or entity including living and non-living parts that interact to produce a stable system through cyclic exchange of materials.
