

Whether Crossword Puzzle

Across

- 1. Temperature , Air , Pressure , Humidity, precipitation, win
- 5. A type of vaporization that occurs on the surface of a liquid as it changes into the gas phase after reaching its boiling point
- 9. A moisture condensed from the atmosphere that falls visibly in separate drops
- 10. The lowest region of the atmosphere extending from earth's surface to a height of about 3.7-6.2 miles which is the lower boundary of the stratosphere
- 13. A measure of the warmth or coldness of an object or substance to some standard value .

- 15. A visible mass of condensed water vapor floating in the atmosphere, high above the ground
 - 16. Atmospheric water vapor frozen into ice crystals and falling in light white flakes or lying on the ground as white
 - 17. The atmospheric temperature below which water droplets begin to condense and dew can form
 - 18. The envelope of gasses surrounding the earth or other planets
- Down**
- 2. The state or quality of being humid
 - 3. When one mixes ions that form compounds that are in soluble
 - 4. The continuous movement of water on,above and below the surface of the earth

- 6. Water that collects droplets on a cold surface when humid air is in contact with it
- 7. The force exerted onto a surface by the weight of the air
- 8. A measuring Instrument atmospheric pressure,used in forecasting the weather and determining altitude
- 11. A cloud forming rounded masses heaped on each other above a flat base at low altitude
- 12. The state of the atmosphere at a place and time as regards heat , dryness, sunshine,wind ,rain,snow ,etc .
- 14. A mist of water vapor that is low on the ground , a mist of another liquid,or a state of confusion or blurred vision .
