

cell organelles

Across

- 2. filled with enzymes
- 4. brain of the cell
- 8. transportation in a cell
- 11. the movement of fluid over a cell
- 12. in charge of photosynthesis

- 13. makes proteins
- 14. storage in a cell
- 15. producing energy

Down

- 1. controls what enters and leaves the cell
- 3. helps cell maintain shape

- 5. the structure outside the cell
- 6. helps to organize cell division
- 7. allows a cell to move
- 9. packages materials
- 10. fluid in a cell
