

Name: _____

Date: _____

cells

Across

- 4. Makes the primers for DNA Polymerase
- 6. What does DNA mean
- 10. Tiny pieces of DNA on the lagging strand

Down

- 1. What direction does polymers go in

- 2. In DNA to mRNA what does Thymine bond with
- 3. In DNA to mRNA what does adenine bond with
- 5. What lives inside the Nucleus
- 7. These speed up reaction
- 8. Transcribe DNA strands into mRNA (GAT)
- 9. What does guanine bond with

Word Bank

ENZYMES

DNA

PRIMASE

5' to 3' direction.

CUA

cytosine

Adenine

uracil

Deoxyribo Nucleic Acid
