

Name: _____

Date: _____

chemistry

Across

- 1. bond held by elements
- 4. rule written with math symbols
- 6. same type atoms grouped together
- 7. building block that combine to make more substances
- 9. table display of chemical elements

- 10. type of bond that creates molecules

Down

- 2. atoms held together with chemical bond
- 3. has mass and takes up space
- 5. group of at least 2 atoms
- 8. different atoms physically grouped
