

circuit scribe

Across

2. The opposite of static
 6. conjunction
 10. protons in a nucleus
 11. A basic component of an electronic device
 12. current name for cycle per second
 13. Voltage controlled transistor, not current controlled

14. Connects two LAN'S or two sections of the same lane

15. $M \times A$

Down

1. The step before routing in PCB design
 3. A device that compares two voltages or currents and switches its output to indicate which is larger

4. science of light
 5. Vertical array
 7. circuit feeding one another
 8. Free from fluctuation and rapid change
 9. occurs when an atom or molecule gains either positive or negative
