

energy cross word puzzle

Across

- 6. a push or pull
- 14. electric circuit with a single path
- 15. no movement of electrons
- 16. the ability to do work
- 17. rate at which energy is transferred
- 18. unit used to measure energy
- 19. what energy is also know as heat

Down

- 1. electric circuit with multiple path
- 2. material which electrons can easily flow
- 3. unbroken path through which electrons can flow
- 4. energy in motion
- 5. rate which an electrical charge flows through the wire in a circuit
- 7. measurement for electric charges to flow through a circuit

- 8. also know as solar energy
- 9. build up of electrical charges
- 10. the motion of charged particles
- 11. resistance movement between 2 objects
- 12. the cause of electron movement
- 13. combination of two or more electrochemical cells in a row
- 20. draw currents from the circuit
