

geometry things :)

Across

- 2. four sides
- 4. flips across x axis
- 5. base angles are congruent
- 12. endpoint that extends
- 13. a/h
- 15. enlargement or shrinking

- 16. (x,y) goes to $(x,-y)$

- 17. greek equations in math

- 18. o/a

Down

- 1. a line that crosses two other lines
- 3. complementary angles
- 6. 180 degrees

- 7. two pairs of parallel sides

- 8. sliding a shape

- 9. one pair of parallel sides

- 10. diagonals are perpendicular

- 11. diagonals are congruent

- 14. o/h
