

Name: _____

Date: _____

math

Across

- 2. triangle with all equal sides
- 5. a closed figure with 3 or more sides
- 6. extends outside the polygon
- 9. straight line passing from side to side through the center of a circle
- 15. enclosing boundary of a curved geometric figure
- 16. triangle with all unequal sides
- 17. circumference of a circle to diameter

- 18. line segments from its center to its perimeter
- 19. action or process of adding something to something else
- 20. a part of a line that has one endpoint and extends indefinitely
- 21. straight line segment
- 22. line extends inside the polygon
- 24. add up to 180

Down

- 1. an exact position in space
- 3. in the same plane
- 4. less than 90 degrees

- 7. an arc of a circle having measure greater than or equal to radians
- 8. add up to 90
- 10. bigger than 180 less than 360
- 11. round plane figure whose boundary consists of points
- 12. dividing into two equal parts
- 13. on the same line
- 14. a part of a line defined by two endpoints
- 23. corner or point where lines meet
- 25. a mathematical constant
