

Name: _____

Date: _____

physics

Across

3. what is the transfer of thermal energy by particles moving through a fluid.
7. what is the transfer of thermal energy by waves that can travel through air or even through empty space.
8. Frequency , how often something
10. energy is changed not destroyed, energy can be transferred to from one type to another

Down

1. Absolute Zero
2. energy which a body possesses by virtue of being in motion
4. what is the transfer of thermal energy between particles of matter that are touching
5. heat moves from hot to cold to water to ice
6. Thermal energy , total kinetic
9. temperature hot or
