electromagnetic induction  
electromagnetic wave  
potential energy  
magnetic field  
wavelength  
vibration  
photon  
pitch  
work

conservation of energy  
mechanical energy  
mechanical wave  
transverse wave  
frequency  
magnet  
force  
power

law of superposition  
longitudinal wave  
kinetic energy  
acceleration  
generator  
medium  
motor  
wave
