

science vocab

Across

3. a measure of the amount of water vapor in the air

7. a large body of air with relatively uniform characteristics

10. the transfer of energy by circular movement of a liquid or gas

11. the gradual increase in the average temperature of the earth

12. a measure of the amount of pressure being exerted on a location by the atmosphere

13. the amount of matter in a given space or volume. Mass divided by volume

14. transfer of energy by direct contact

15. instrument that measures wind speed

Down

1. the directional winds that usually occur in a region

2. transfer of energy by electromagnetic waves

4. instrument that measures humidity

5. large system of rotating currents

6. the boundary between two air masses

8. the gases that surround the earth

9. instrument that measures air pressure
