

slope

Across

2. what is the horizontal line on the graph
4. the point where the line begins
5. (x,y) what is this called
6. where the line crosses the y axis
7. $Ax + By = C$ what does this mean in slope

8. $y=mx+b$ what dose this meane

9. what is the vertical line on a graph called

Down

1. what is a line on a graph called

3. what are the numbers called on the edge of the the paper

10. in the term $y=mx+b$ what is M
